Prophylactic Mastectomy Outcomes Study Survey

Notes for Potential Users

The survey on the following pages was used for the study described in the following publications:

We offer the survey for review by interested parties. We caution any potential users of any portions of the survey to consult the documentation of question sources at the end of this file to ensure appropriate use and attribution. Should any items developed or adapted by our group be used in another survey, we would appreciate citation of one or both of the first two publications listed above.

Any questions about the survey should be directed to Ann Geiger at ageiger@wfubmc.edu.
Living with Breast Cancer Risk: Survey of Experiences

We appreciate your taking time to participate in our research study by completing and returning this survey. Remember that completing this survey is voluntary. You may choose to skip questions that make you uncomfortable. Your participation in this study does not affect your medical care or coverage in any way. We will not share your specific answers with anyone else and no information identifying you will appear in study reports.
